## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 32 is rejected under 35 U.S.C. 102(b) as being anticipated by Azenkot et al (US 2002/0154620).

Azenkot et al discloses an equalizer implemented in accordance with means for shaping a channel impulse response to a desired target shape, the means for shaping comprises a first means (a shaping filter in the transmitter, not illustrated) for providing desired shaping to the read signal and a second means (the matched filter 84) for providing a time-reversed component that is a time-reversed replica of a whitening filter component of the means for shaping.

See Fig.4 and the last sentence of paragraph [0146] in particular.

### ***Allowable Subject Matter***
